

REACH DECLARATION

Declaration in accordance with the Regulation (EC) No
1907/2006 concerning the Registration, Evaluation, Authorisation
and Restriction of Chemicals (REACH).

The Regulation only applies to us in our capacity as downstream user.

We are not subject to the pre-registration and registration obligations associated with the production and circulation of chemicals.

The products we supply to you do not fall under the definition of substances or preparations as per article 3 of the Regulation.

As our products do not release hazardous substances under normal or reasonably foreseeable conditions of use, article 7 of the Regulation does not apply.

If the products contain substances on the candidate list in a concentration greater than 0.1 %, Hekatron Vertriebs GmbH will inform your customers in accordance with Article 33 without being requested to do so.

Furthermore, Hekatron Vertriebs GmbH promises to pursue updates of the REACH requirements, especially additions to the candidate list and the inclusion of substances in REACH annexes, and to adjust the substance information in line with these.

These statements are based on our current knowledge and experience. We cannot give any guarantee or accept any liability for factors outside of our knowledge and control.
